

SUPERHEROES & Sunflowers

Workshop Agenda

Superheroes & Sunflowers is an event you don't want to miss. You'll spend your morning inspired by remarkable women who have overcome adversity, defied the odds, and become true superheroes. You'll learn how technology and innovation eased the burden of the pandemic and changed the way we work, live, and connect. You'll have the opportunity to engage and reconnect with your peers through lively discussion and highly engaging activities (both in and out of the garden). Ultimately, you will have time to discover and reflect on your own superpowers and determine how they can best serve you as we navigate this new and ever-changing world.

Welcome & Introductions

Keynote: Unarmed but Dangerous

Tawana Williams

Activity: Superheroes Among Us

Discovering superpowers while in the garden

Break
